

**KYOCERA NIXKA INKJET SYSTEMS (KNIS) ACHIEVES ISO 9001:2015 CERTIFICATION
AND REAFFIRMS ITS COMMITMENT TO QUALITY**

Aubagne, France — July 30th, 2026 — Kyocera Nixka Inkjet Systems is proud to announce that it has achieved **ISO 9001:2015 certification**, an internationally recognized standard that acknowledges the company's commitment to quality, continuous improvement, and customer satisfaction.

This certification confirms the implementation of a structured Quality Management System based on well-controlled processes, a culture of continuous improvement, and full alignment with the KYOCERA Group's quality policy. It further strengthens the quality and reliability of the company's products and services, enhances its ability to meet customer expectations, and supports the long-term development of Kyocera Nixka Inkjet Systems.

Beyond the official recognition, this certification is above all the result of a collective effort. Over the past several months, the teams at Kyocera Nixka Inkjet Systems have worked together to analyze, structure, and optimize internal processes, reinforce best practices, and foster a shared quality culture throughout the organization, while preserving the agility and creativity that characterize the KNIS teams.

"Achieving ISO 9001 certification marks an important milestone for Kyocera Nixka Inkjet Systems. It reflects the commitment, discipline, and dedication of all our teams. This collective achievement demonstrates our determination to place quality and customer satisfaction at the heart of our strategy while continuously improving everything we do," said Paul Morgavi, President of Kyocera Nixka Inkjet Systems.

This certification further reinforces the international dimension of Kyocera Nixka Inkjet Systems' activities and global development strategy through its Belharra, Genix 1200, and Lenix 1200 product lines. It strengthens the confidence of customers and partners alike and supports the company's ambition to continue its growth by building on the expertise of its teams, technological innovation, and an unwavering commitment to delivering high-quality products.

About KYOCERA NIXKA Inkjet Systems S.A.S. (KNIS):

KNIS (<https://www.kyocera-nixka.com/>) is the entity created in April 1st 2023, from NIXKA S.A.S., established in 2020, which developed, manufactured and sold high-efficiency, high-quality inkjet print engines and systems with more than 30 years of experiences, and with the differentiating advantage of integrated services that target

specific customer needs, and becoming 100% part of KYOCERA Corporation (<https://global.kyocera.com/>), the parent and global headquarters of the Kyocera Group, which was founded in 1959 as a producer of fine ceramics (also known as “advanced ceramics”). By combining these engineered materials with metals and integrating them with other technologies, Kyocera has become a leading supplier of industrial and automotive components, semiconductor packages, electronic devices, smart energy systems, printers, copiers, and mobile phones.
